

# CLASSIC SERIES

WATERPROOF OUTERWEAR - HEAVY DUTY

**CANADIAN™**

**TOUGH SEA.  
TOUGH HAUL.  
TOUGH DAY.**

For generations, Ranpro has protected the fishing industry from the harsh conditions of the open sea. These Classic Series outer garments are resistant to all fish and marine oils and feature watertight, electronically sealed construction. They retain excellent flexibility, even in the coldest conditions.

Whether it's the comfort of Polycotton in our Snapper® Classic or the "Tear-Tuff" nature of the Canadian™ Classic, count on Ranpro to keep you covered through the long haul!

## CANADIAN™

When you are looking for tough tear resistant properties, look to the Canadian™ Classic. The fabric features a 13 oz/yd<sup>2</sup> specially treated PVC double-coated tear resistant woven fabric. The double coating allows you to easily clean this garment inside and out while the "Tear-Tuff" characteristics of the fabric provide you with a garment that lasts longer. The specially blended PVC coating is resistant to marine & fish oils and will remain soft and flexible in cold and harsh conditions. Equipped with electronically sealed seams, these garments will remain watertight.

- Tough waterproof seams
- Available in sizes S-4XL, Marine Green

## SNAPPER®

Our Snapper® Classic has been a tried and proven product in Heavy Duty applications for years. Commercial Fishing is one of the toughest applications that we know of. The fabric's blend of PVC and Polyurethane provides the wearer with increased softness and cold flex which will be appreciated under the harshest of conditions. This blend also offers increased wear through an improved resistance to oils along with higher abrasion resistance.
